Professional Experience

Software Engineer Intern, Infinite Options LLC - San Jose, CA
March 2020 - October 2020

- Utilized ReactJS and Bootstrap to match UI designs for 10+ pages
- Interfaced with backend APIs to load information and execute functions
- Created app to send notifications to 100+ users using AG Grid and Twilio
- Developed admin dashboard using Highcharts to display important stats
- Learned Xamarin Forms in less than a week to assist with mobile

Technical Projects

RecomMedia - 🐙

Web application for media recommendations

- Led team of 6 skilled developers with Agile/Scrum methodology
- Implemented login functionality with JWT and refresh tokens
- Coded web scraper in BeautifulSoup to load 2000+ movies from IMDb
- Refactored routes with pagination in Python/Flask to reduce load time by up to 90%
- Designed UI mockups for 10+ pages using Figma

GoalKeeper - 🐙 🌐

Full stack application for tracking goals

- Allows users to make an account, create goals, track completion
- Frontend built with ReactJS, Bootstrap, hosted on Netlify
- Backend built with Python, Flask, hosted on Heroku
- Data stored using DynamoDB, NoSQL

Personal Webpage - 🐙 🌐

Website with About me, Resume, Portfolio, Contact

- Built using ReactJS and Bootstrap, hosted on Netlify
- Data stored in JSON for easy editing
- Contact page uses Netlify forms to notify me on submission
- More projects available to view in my Portfolio
